OUR VISION

Titanium Race Timing delivers chip timing services with a difference. Our mission is to provide every event organiser with a bespoke, personal service while engaging directly with participants to ensure they have a fantastic race-day experience.

At Titanium, **every participant matters**. Whether they're aiming for a PB or simply crossing the finish line, we're here to help them achieve their goals. Our technology must be **100% reliable**, and our team plays a crucial role in making that happen.

Personal touches matter to us - from congratulating participants on their achievements to creating a positive and memorable atmosphere at every event.

That's where you come in.

We are looking for someone to help prepare and send out participant race packs, ensuring that **every participant receives their personal pack and that all contents are correct**, helping them gear up for the start line with a smile. We're looking for someone with accuracy, positivity, and drive, ready to help us post out thousands of race packs ahead of the big day. You'll be part of a team dedicated to making sure every participant arrives at the start line prepared, excited, and ready to race.

Together, you'll be part of a team that ensures every participant reaches the start line on time and ready to race.
