

EVENT TECHNOLOGY LEAD - TIMING

- Do you love being part of sporting events and helping participants celebrate the results of months of training?
- Do you enjoy speaking with participants and making sure they have an exceptional experience at every event?
- Are you available on weekends, comfortable working with IT, and enjoy problem-solving in fast-paced environments?

If this sounds like you, then read on.

We're Titanium Race Timing, and we're looking for dedicated Race Timers to support events nationwide.

OUR VISION

Titanium Race Timing delivers chip timing services with a difference. Our mission is to provide every event organiser with a bespoke, personal service while engaging directly with participants to ensure they have a fantastic race-day experience.

At Titanium, **every participant matters**. Whether they're aiming for a PB or simply crossing the finish line, we're here to help them achieve their goals. Our technology must be **100% reliable**, and our team plays a crucial role in making that happen.

Personal touches matter to us - from congratulating participants on their achievements to creating a positive and memorable atmosphere at every event.

That's where you come in. We're looking for someone who can run our tech reliably, stay calm under pressure, and cheer participants on with genuine enthusiasm. And while you focus on delivering exceptional experiences, we'll make sure you have the training, tools, and support you need to shine.

Together, we'll help make every event unforgettable — for organisers, participants, and for you too.

DO YOU LIKE THE FOLLOWING?

We are a tech company who innovates and we have a similar approach to sales and planning. So, ask yourself:

- Do you like working with IT tech?
- Are you comfortable troubleshooting technical issues on the fly?
- Do you enjoy speaking with participants, celebrating their achievements, and contributing to a positive race-day atmosphere?
- Do you enjoy working in outdoor environments?
- Do you enjoy working to deadlines and getting stuck in?
- Are you happy carrying out manual, hands-on tasks as part of event setup and breakdown?
- Are you efficient and reliable?
- Are you looking for a job that is going to **give you responsibility?**
- Can you commit to regular weekend work, as this is when all our events run?
- Are you happy working early mornings (sometimes as early as 5am) and longer event days when required?
- Do you have a full UK driving licence?
- Are you good with software and open to learning new skills?
- Do you enjoy live sporting events (Running, Triathlon, Cycling)?

If this sounds like you, then read on.

HERE'S THE SORT OF THING YOU'LL BE DOING AS A EVENT TECHNOLOGY LEAD - TIMING

As a Race Timer you will be taking on the pivotal role of timing the event and all which comes along with the job role. This includes driving to the race location (sometimes an overnight stay the night before), setting up timing equipment, assisting event organisers, managing remote timing points, undergoing timing of the event, presenting podium results and dealing with any timing queries. It sounds like a lot but no need to stress or let this deter you! We will provide in-depth training and shadow you until you get up to speed.

Our events span across the UK which provides a unique chance to discover unexplored locales. Embrace the possibility of working in picturesque countryside fields or the exciting hustle and bustle of towns for fast closed road running events!

WHAT YOU'LL BE DOING AT EVENTS

- **Event setup and chip timing** – transporting and assembling equipment, setting up finish-line structures, and managing timing systems to ensure accurate results for every participant.
- **Participant interaction** – welcoming and cheering participants across the finish line, handing out medals, and helping create a memorable and positive race-day experience.
- **Working in all conditions** – embracing early starts, long event days, and the challenges of outdoor environments, from sun to rain, to make every event a success.
- **Data management** – ensuring race results are accurate, securely handled, and delivered efficiently to organisers.
- **Communication with organisers** – liaising with event teams to ensure all timing and operational needs are met.

This is a hands-on role where no two days are the same, perfect for someone who enjoys technology, outdoor work, and being part of a dynamic, fast-moving team.

APPLY NOW

If you want to be part of a dynamic, tech-driven events team and love the idea of helping participants see the results of months of training while giving them an unforgettable experience, [submit your application online](#). Please also send your CV with a covering letter (not generated with AI!) to office@titaniumracetiming.co.uk

At our events, every participant matters — whether it's 100 people or 10,000. We're looking for team members who take pride in 100% reliability, ensuring accurate timing and a seamless experience for everyone involved. Your work will help people celebrate their achievements and create memories that last a lifetime, no matter the size of the event.

Want to make your application stand out?

- At our events, every participant matters — whether it's 100 people or 10,000. We're looking for team members who take pride in 100% reliability, ensuring accurate timing and a seamless experience for everyone involved. Your work will help people celebrate their achievements and create memories that last a lifetime, no matter the size of the event.
- We're a growing business, and we're looking for people who want to build their career with us, developing their skills, and elevating and sharing their expertise along the way. If you're after a short-term or 'stop-gap' job, this isn't the role for you — we want people ready to grow and make a lasting impact.

REALLY WANT TO IMPRESS US

Send us a two-minute video introduction on WhatsApp to our Director Ryan on 07737 624585 telling us about yourself and why you're perfect for the role.

All the best!
